# A Little About The Project

## What is the Advisory Group all about?

Voices From Care's Advisory Group will consist of care experienced young reps from all parts of Wales. We will meet 4 times per year, across Wales to discuss the future of our organisation and how we can better improve the lives of care experienced young people.

The advisory group will be a great way to meet other care experienced young people from across Wales, hear all the great things happening in your areas as well as the things that young people would like to improve.

The young reps, aged between 12-21, main goals will be to help set the plan for Voices From Care Cymru, advising us on what's important to care experienced young people and how we can better work for you.

It's important because everything Voices From Care Cymru does is guided by you. We believe that care experienced children and young people should have the same opportunities as other people who have not had the same life experiences.

We provide the opportunity for children and young people to meet, grow, learn and develop long lasting friendships. We want all young people to be the best they can be.

We are always looking to inspire and nurture your full potential. We welcome young people of all care experiences and from all parts of Wales. We promote individuality and diversity, this means we can better represent the people that matter to us....YOU!
